## PERMANENT MAKE UP

### Consultation

On the day of every client's booked procedure, we do a thorough consultation, discussing colour, shape, skin etc.

However, we do offer a free consultation for clients who are still hesitant and unsure. During this consultation we will answer all your questions and explain exactly what the procedure entails (15 minutes).

### Permanent Make Up Procedures

Permanent make up is at least a 2 step process, therefore a touch up is needed after a period of 5 – 8 weeks, after your first session.

Permanent make up can be performed with different techniques, but all techniques are considered permanent make up.

We choose the best suitable technique according to every client's desired look and skin type:

- Amiea Machine / Nano Brows
- Microblading
- Shaded Brows
